Emergency Procedures

Parents will be notified when school personnel determine a student's illness requires that the student must be sent home. If a parent cannot be immediately located, the school will call one of the emergency contacts listed on the student's registration form.

If a student sustains a serious injury, the school will call an ambulance and the student will be transported to the nearest medical facility. A NHKS staff member will accompany the student and will remain with the student until the parent(s) arrive.
